

How to redeem a Vitalsource eBook code

1. Sign in or register
2. Select 'Redeem' and enter code
3. Click on the book to open it.

iPhone, iPad & iPod Touch (iOS 3.2 or later)

To open your book in Bookshelf for iOS, you must have a Bookshelf account on your computer. Download and launch Vitalsource Bookshelf and sign in with your email address and password. Once your booklist downloads, you can tap on your book to download it to your iOS device. If your book has been downloaded to your computer, you can transfer it to your iOS device through iTunes. Detailed instructions are available here: <https://support.vitalsource.com/hc/en-us/articles/202298738-Transfer-eTextbook-from-Mac-to-iOS>. Once the book has transferred to your iOS device, tap on it to open it.

Android (4.0 or later) and Kindle Fire (2, HD ,HDX)

To open your book in Bookshelf for Android or Kindle, you must have a Bookshelf account on your computer. Download from the Google Play Store for Android or the Amazon App Store for Kindle and launch Vitalsource Bookshelf and sign in with your email address and password. Once your booklist downloads, you can tap on your book to download it to your device. Once it is downloaded, tap again to open.

Windows 7/8/8.1/10

Download Vitalsource for Windows, available here: <https://support.vitalsource.com/hc/en-us/articles/201344733-Bookshelf-Download-Page>. Click run when prompted to begin downloading the installer. Once the installer has downloaded, click Run once again, choose your language and press OK. Vitalsource requires Microsoft .Net 4.5 to be installed. If you do not have Microsoft .Net 4.5 installed it will be installed prior to Bookshelf being installed. Click on the Next buttons until you come to the Install button. Click Install. Then click the Finish button. Now restart your computer, and Bookshelf will be ready to launch.

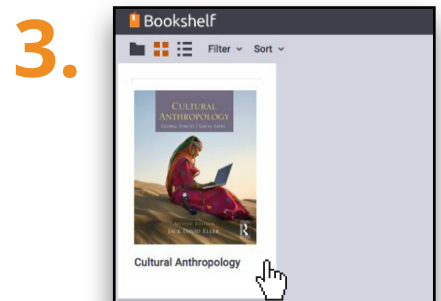

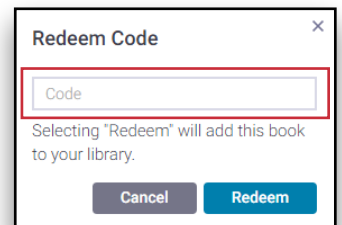

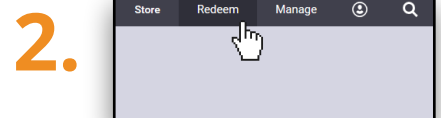

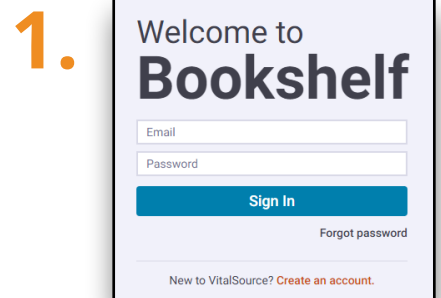

Mac OS X (10.8 or Later)

Download Vitalsource for OS X (.zip), available here: <https://support.vitalsource.com/hc/en-us/articles/201344733-Bookshelf-Download-Page>. Locate the Bookshelf.zip file in your downloads folder and double click to unzip. Now click the Bookshelf icon in the downloads folder. You will be asked to confirm that you would like to open Bookshelf. You can now sign in and use Bookshelf. To install Bookshelf, go to the Bookshelf menu and click 'Quit Bookshelf'. You will be presented with a dialog box asking you whether or not you would like to install Bookshelf. Click Install and Bookshelf will move from your downloads to your Applications folder. To add the Bookshelf icon to your dock, Click and hold on the Bookshelf icon in your dock, then choose Option > Keep in Dock to add Bookshelf to your dock.

Chrome OS

Download Bookshelf for Chrome OS, available from the Google Chrome store here: <https://chrome.google.com/webstore/detail/bookshelf/aplfhoaacfjhjejkkgfpgcadhfddmmgp>. Click the ADD TO CHROME button to begin the installation. Once you click ADD TO CHROME, you will be asked to verify that you want to install Bookshelf. Click Add App. Once the installer has been downloaded to your Chrome OS device, the ADD TO BOOKSHELF button will say 'Checking.' Once it is done verifying the download, Bookshelf will automatically be installed to your device. Double click the Bookshelf Icon in your app launcher to start Bookshelf. To pin Bookshelf to the bottom of your launcher, right click on the Bookshelf icon and choose pin. Once Bookshelf has launched, sign in with your existing Bookshelf email address and password. Once you have signed in and downloaded your eTextbooks you will be able to use Bookshelf with or without a network connection.
